### Long Ago and Now

Long ago life was different.

Long ago people rode horses to work.

Now we ride in cars.

Long ago people sent someone to deliver letters.

Now we send emails on our computers.

Long ago people used lanterns and candles.

Now we use electric lights.

Long ago people got water with buckets.

Now we get water from faucets.

Long ago people cooked on fires.

Now we cook on stoves.

Long ago people cleaned with brooms.

Now we clean with vacuum cleaners.

Long ago people washed clothes by hand.

Now we wash clothes with washing machines.

Long ago people drew pictures by hand.

Now we use cameras to take pictures.

Long ago life was different.
