

1st Grade

Week of April 14-17

All lessons were created by the first-grade team in collaboration with Ms. Song, Mrs. Simon, Ms. Valentina, Ms. Vasilkov, Mrs. Penn-Murray, and Mrs. Saunders.

MONDAY lunes	TEACHER WORKDAY
TUESDAY martes	<p>Daily: Raz-kids or EPIC! (Read books of your choice)</p> <p>Language Arts- <u>Sight Words</u> – they, need, are Read, spell and air write the words 5 times Now look for these sight words as you read the book. <u>Reading</u> – Go to EPIC *you will need your class code from your child's teacher or to go through your Microsoft Clever account The following book has been assigned to you: <u>My First Pets: Gerbils</u> <u>Comprehension Questions</u> – After listening/reading the story, complete the quiz for <u>My First Pets: Gerbils</u> <u>Writing</u> – Write 1-2 sentences about what this book make you think of. (Hint- Midnight & Sandy rolling through the halls) <u>Speaking</u> – Go tell someone in your house- two facts you learned about gerbils & the perfect name for a gerbil. <u>Phonics</u> – Come up with three words that end in -mp (like jump – try to use your blends and digraphs 😊).</p> <p>Science- Spring is here! We've talked about the different seasons and how the weather changes and animal behavior and needs change with the seasons. Springtime is a great time for picnics. Write a story about a picnic you would have. You can use the A Picnic Party! brainstorming page and writing pages emailed to parents to help you write your story or just write it in a notebook or on a piece of paper.</p> <p>Math- Complete at-home calendar questions (template posted with materials for the week) and practice math facts. <u>Counting On</u> - Watch the video about Counting On - Complete your assignment: Using the counting on method, solve the following problems- 4+6= , 7+3= , 5+2= , 12+6= , 14+5= .</p> <p>P.E.- https://sudleyes.pwcs.edu/class_pages/specialists/Welcome</p>

WEDNESDAY
miércoles

Daily: Raz-kids or EPIC! (Read books of your choice)

Math- Complete at-home calendar questions (template posted with materials for the week) and practice math facts.
Making 10

- Watch the video about Making 10

- Complete your assignment: Making your own ten frames, solve the following problems by making 10-

$5+7=$, $9+3=$, $6+8=$.

Science- Go to Brain Pop Jr. under clever and do the assignments on Spring. Have fun with the drawing and writing activity. I would love to see what you have created. So, send your assignment to my email. Have fun!

Other Optional activities: These family and homeschool activities are designed to complement the [Spring](#) topic on BrainPOP Jr

Arbor Day - Many communities have Arbor Day festivities. Local parks often invite community members to help plant trees, maintain gardens, or clean up areas. If possible, plant trees with your child. Learn about the variety of trees in your area and find out the best ways to keep them healthy.

Listen to Spring - Go on a walk and listen to the sounds of spring. You may even want to blindfold your child so he or she can really pay attention. Animals come to life during this season of growth and birth, and your child may hear frogs croak or birds sing. He or she may notice the buzz of insects or other animal noises. You may wish to do the activity again in the evening. What sounds are different?

Book for Spring - Go to the Sudley Elementary School library page and click on Unite for Literacy then go to the book, Earth Day, by Holly Hartman. Read for your pleasure

Art- <https://sudleyes.pwcs.edu/cms/One.aspx?portalId=411175&pageId=5587399>

Students should check out the videos and the choice boards.

<p style="text-align: center;">THURSDAY jueves</p>	<p>Daily: Raz-kids or EPIC! (Read books of your choice)</p> <p>Math- Complete at-home calendar questions (template posted with materials for the week) and practice math facts. <u>Story Problem</u> - Solve the assigned story problem - Watch the video to check your work</p> <p>Social Studies- Go to the Sudley Elementary School Library Page and click on Pebble Go.
