6/8-6/12

1. Watch each of the short videos below about context clues.

[Different Types of Context Clues That Can Help Us](#)

2. Use what you learned to figure out the meaning of 3 bold words from [this passage from Oom Razoom](#). Write down:

- the words you chose
- what words in the context helped you figure them out
- what you think each word means

*Example: **archer** - “duties for the king” means it’s some kind of job where he gets “wet” from “tramping through marshes.” I know that hunters hide in marshes to hunt ducks and that kings have feasts where they need meat, so I’m guessing that **archer** = a hunter*
