THE OCEAN CLEANUP

Oceans are full of trash.

An inventor is working to clean up oceans.
The inventor is Boyan Slat.

He is from the Netherlands.

Boyan started a group called The Ocean Cleanup.
The Ocean Cleanup made a new invention for rivers.

Many rivers are full of trash too.

Trash in rivers can flow into oceans.

Click to see how the invention works:
Now the invention collects trash in rivers.

Then the trash cannot flow into oceans.

The oceans will be cleaner!
OCEAN CUP

**NEED**

- 6-oz box blue gelatin
- 2 C hot water
- 2 C cold water
- 21 gummy fish
-large bowl
-spoon
-ladle

Knock, Knock.

Who’s there?

Group.

Group who?

Group - er is an ocean fish.

Grouper
I have a joke!

Tell me!

What fish comes out at night?

I don't know. What?

A starfish!
