

The Cave

Second Assignment: Read the above poster found in your Benchmark assignments. Then put the main events of the story in order that they occurred using the graphic organizer below. **Remember authors don't always tell stories in the order they happened.** As a good reader you must read the passage at least twice and decide what happened first, second, and so on. When listing your events, make sure to use signal words like: first, then, next, finally, etc. Email or text me your answers.

Sequence of Events
